DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

21-31 Central Avenue is a group of six row houses. Each building is three stories tall and two bays wide. They have shed roofs and are composed of stretcher bond brick. The windows have one-over-one lights, wooden sills, and arched lintels of header bond. A single leaf door with a flat transom and arched lintel is located in the left bay of each building. Buildings 23, 27 and 29 have round brick edges in their doorways. Small square cellar windows are located at the bottom right across the entire group. There is a small wooden decoration between the flat top and arch of the windows and the doors. Buildings 21, 23, 25 and 27 have bracketed cornices with decorative friezes. Building 27 has a plain cornice with two brackets protruding above the cornice at the ends. Building 31 has no cornice and is composed of formstone. All of the buildings except 25 have marble steps. All of the buildings except 23 seem to be inhabited.
